FAMILY • GOD • EDUCATION

WHY CHOOSE VCS?

- Intentional small classroom size (10 to 15) at every grade level, to support one-on-one attention and individual growth.
- High-quality, immersive classroom curriculum that encourages creativity through Spanish-language development.
- Provide after-school and summer enrichment programs (Open from 7:00 AM - 6:00 P.M.)
- Offer extra-curricular opportunities. Partner organizations include: YMCA, Kinder dance of Alamo City, Soccer Shots.

ACADEMICS

Infants - relationships based on trust are established with a warm environment full of love and security.

Preschool - behavior and character are developed in activities focused in developing their faith in Jesus Christ, life and academic skills, and cultural experiences.

Elementary - academic and social potential is maximized with an emphasis on cultures from the Spanish-speaking world, having proficiency and literacy in both Spanish and English.

Middle School - the excellent academic 50/50 program that we have in the elementary level continues. The main classes are taught in English and all others in Spanish creating an environment where students can thrive in both languages.

OUR CORE OBJECTIVES

- Provide a Christian-based curriculum that engages culture, creativity, and exploration.
- Execute an effective early learning Spanish-immersion model and transition to an elementary/ secondary two-way dual language program.
- Provide supplemental programming to support continued learning (i.e. after school and summer enrichment, extra-curricular activities).
